Jubily-Paper-Money-Exhibition 1937

RIED im INNKREIS, AUSTRIA

Post Office Box 20

Ried im Innkreis, 7th. VIII. 1937

Dear Sir!

To begin with will you please excuse me my causing taking up your time through my letter!

We are going to have a Jubily fare this year combined with an exhibition of old, obsolete Paper Money under the title:

The money economical Development
of the world in the 18., 19. and 20. century.

I should be very much obliged if you take the trouble to send me for this Exhibition in exchange for the out of date paper money, obsolete bankbills, war money, city bills, occupations money, need money etc. etc. made of paper or similar material. Being sure it is a matter of great interest to my people to have a lot of obsolete paper money of your countries. Coins do not come in the show.

Not having any yet of your countries we should be very much of by way of exchange for the hereby enclosed samples of ours you would take the trouble to send us some of yours. The present currency of course is not in cours.

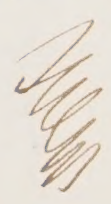

Please, send you me old paper money, obsolete bankbills, war money etc. of your countries for this Exhibition.

Inclosed find you in exchange old paper money, need money, bankbills, war money of Austria, Germany and Hungary.

Thanking you beforehand for your kindness

yours

very respectfully

August 20, 1937

Jubily-Paper Money Exhibition,
Ried im Innkreis,
P.O.Box 20,
AUSTRIA

Gentlemen:

Your favor of August 7th at hand, enclosing an assortment of paper money in exchange for some we might have. Unfortunately we have gotten rid of nearly all of our obsolete United States money so that I can only give you a very few poor pieces but I am enclosing paper money of other countries.

Some of the new paper money we are enclosing was issued by different cities of this country during the depression and was good for a short while and then it was redeemed. It, however, is interesting.

Very truly yours,

Curator
